Welcome

On behalf of everyone at Lazy S Ranch we would like to invite you to join us Saturday, January 31, 2015, for our annual bull sale. We are a family-run operation located west of Edmonton in the Mayerthorpe area. We feed our own bulls, as well as background and finish steers and bottom end heifers. We manage and clerk our bull sale, and handle the sight unseen orders ourselves. Our many thanks to extended family and friends for their help to make the sale a success, we couldn't do it without you.

Forty-five years of perseverance has led to an outstanding, hard-working cow herd. We do not sell our top end replacements off each year, we put them back into our herd. This allows us to cull harder on the cowherd and only keep the very best mother cows that have a good dispositions, are deep bodied, strong topped, with good udders and feet, and that bring in a good quality calf each fall. We also annually ship our open cows, we don't rebreed them for a later calving season.

The bulls are "Sorted for Success"... hand picked from 1,000 powerfully productive, deep bodied females with proven ability to breed, milk and produce pounds of beef. We breed cattle that are moderate birth weight – calves are thrifty and aggressive at birth and get up and suck quickly. Our calves are weighed at birth on a scale.

Genetically engineered for rapid growth. We don't creep feed our calves to achieve artificial weaning weights. Bull calves are grown on milk and grass.

Buy your bulls early and save \$\$\$. The last two years, bulls sales were higher come spring. This might be the year to get them bought early.

We offer a free wintering program on all the sale bulls. Take advantage of our payment plan ½ down sale day, balance with post-dated cheque April 1, 2015, interest free.

We managed to get a few of our herdsires videoed this past year; go to the website www.lazysranch.ca to view the sire videos, as well as the sale bulls and commercial bred heifers. Also check out the Bull Power Program Page, it provides valuable info on how the bulls are raised from birth to delivery.

New Outcross Simmental and Angus Genetics, exclusive to Lazy S. Look at the herdsire section for videos on our premier sires.

We decided to share a few red and black commercial bred heifers with you. We dug into to our replacement pen and picked out some fancy heifers. These heifers will sell in smaller groups sale day, by video. Watch our website for updates on bulls and females as the sale approaches.

We look forward to seeing you!

Bull Nutrition

LAZY S RANCH *bull development*

To valued customers and potential buyers:

The proper care, feeding and management of a young sire will ensure that you will be happy with the return on investment of your Lazy S bulls.

The yearling bulls that have been fed at Lazy S will increase the genetic performance of your herd through increased weaning weights, carcass quality and replacement females. By managing yearling bulls properly, your investment will return dividends for many years.

Nutrition is the main factor that influences "proper condition and weight" of bulls, and thus their fertility. At weaning time, Lazy S bulls are started on custom bull-growing rations that have been designed for development of the frame and muscle of growing bulls without fattening them. There is no advantage to shoot for high rates of gain in growing bulls by feeding them large amounts of grain. We do not feed barley!

At Lazy S, they believe that the fertility of the herd bull is even more important than its growth performance. So in addition to protein and energy, they make sure the rations contain an adequate trace mineral package. Therefore they feed Chelated zinc, copper, manganese, and organic selenium to enhance reproductive performance.

The cow herd also receives this mineral in the breeding season to enhance their reproduction.

\$67,000 high seller from TNT Simmental's 2013 sale. Bootlegger is a very thick, attractive bull, by a top producing cow family. We look for great things from this young sire. We ended up with more heifers calves than bull calves this year, but that is ok as they will make superb cows. Utilized AI.

erate. He is thick made with excellent performance. He was a top performer for weaning at TNT, 871 weaning, 4.00lbs per day. His dam is a easy keeping, perfect uddered productive cow. Her dam is a daughter of the maternal great Mr Beef. Ranks top of breed for marbling. Outcross genetics - Moon Walk and Ninety Proof are the only two Moon Shine walking sires in Canada!

Sires progeny that are born easy, clean fronted and easy keeping. This is the last progeny on offer for this great sire; he was hurt during last year's breeding season. We used him for 8 years - not bad! His dam is still here in production at the age of 13.

RED SIMMENTAL

Introducing...

The Lazy S Red Simmental Bulls in this offering are multi-generational red and polled... solid colored or blaze face, sired by breed leaders that rank at the top of the breed for calving ease, birth weight, performance, maternal calving ease, marbling, REA and yield grade.

We have some new brand new sire lines that are a total outcross to anything in Canada: check out Bootlegger, Moon Walk, Ninety Proof and Red Iron sons in the offering.

Lazy S Red Simmental bulls are fast becoming very popular among commercial cattlemen seeking an alternative to other breeds of cattle to strengthen performance, marbling, REA, yield grade and maternal power. Lazy S-sired red Simmental genetics will give you that extra punch and increase your gains on grass and in the feedlot.

BLACK SIMMENTAL

Introducing...

At Lazy S, our Black Simmentals are multi-generational black and polled... solid with a select few partial blaze face. Birth weights are moderate, calves are born easy and are vigorous at birth. Herdsires are selected for superior performance and maternal traits, fleshing ability, soundness of feet and legs with solid carcass performance. Buyers looking for good black-hided calves that excel on grass and in the feedlot, that marble and yield... Black Simmentals are proven to do just that. They also work extremely well in a crossbreeding program with British-based cows, such as Angus or Hereford – daughters will have retained heterosis and added productivity.

The Lazy S Black Simmental Bulls in this offering are a tremendous set of bulls, they have great hair coats, they are strong topped with lots of rib and hip, and offer outcross genetics only found at Lazy S. There are a few two- and three-star heifer bulls, you will love the way they calve.

BLACK BEEFMAKERS

Introducing...

Lazy S SimAngus Beefmakers.. CROSSBREEDING MADE SIMPLE! Now more than ever, cattlemen should consider the strengths of utilizing a SimAngus bull(s) in your breeding program. Our SimAngus have demonstrated time after time their ability to add growth, extra muscle and exceptional performance, while maintaining the moderate size, maternal strength, calving ease, and superior marbling and yield grades. Crossing the best of our Red and Black Simmental with Red and Black Angus enhances maternal performance and carcass traits. Notably the largest benefit will be the superb set of look-a-like females you will be creating using this blend of genetics that offer improved reproductive efficiency obtained through heterosis (hybrid vigor) with breed complementarity.

We have created groups of bred alike half and three-quarter brothers in varying percentages, allowing our customers an excellent selection to best fit their management and marketing needs. From straight F1's to high-percentage Angus, or high percentage Simmental-influenced bulls, we have a nice selection for you to choose from... all packaged in a look-alike polled breed group.

RED ANGUS

Introducing...

At Lazy S, our Angus genetics are selected for calving ease, performance, maternal traits and soundness of feet and legs, with an abundance of muscle, hip and top along with exceptional carcass merit that marbles and yields well. If you're needing heifer bulls, many of the sale bulls have generations of built-in calving ease top and bottom, and rank in the top 10% of the breed for BWT and CE.

We have successfully calved the sires and maternal sires in our own heifer pen, so rest assured they will calve for you. Check out our new sires, Dynamo, 45 Caliber and Hoover.
