LAZY S RANCH

Welcome...

On behalf of everyone at Lazy S Ranch we would like to invite you to join us Saturday Jan 30/16 for our 47th annual bull sale. We are a family run operation located west of Edmonton in the May-erthorpe area. We feed our own bulls as well as background and finish our steers and bottom end heifers. We are a family operation that makes 100% of our living from our cowherd.

47 Years of perseverance has led to an outstanding hard working cow herd. We do not sell our top end replacements off each year, we put them back into our herd, this allows us to cull harder on the cowherd and only keep the very best mother cows, that have a good disposition, deep bodied, strong topped, with good udders and feet that bring in a good quality calf each fall. We also annually ship our open cows, we don't' rebreed them for a later calving season.

Due to demand we increased our numbers this year, the Quality from top to bottom runs deep, this years offering is the most uniformed set of bulls to date and we are so excited to offer this elite group of bulls to you. Majority of bulls sell to the commercial industry and we are proud of it.

The Bulls are Sorted for Success.....hand picked from 1000 Powerfully Productive, deep bodied females with proven ability to breed, milk and produce pounds of beef. We breed cattle that are moderate birth weight....calves are thrifty and aggressive at birth and get up and suck quickly. Our calves are weighed at birth on a scale. Many $\frac{1}{2}$ to $\frac{3}{4}$ brothers on offer.

Genetically engineered for rapid growth - Bull calves are grown on milk and grass. Buy your bulls early and save \$\$\$, the last 2 years bulls sales were progressively higher come spring, this might be the year to get them bought early.

LAZY S RANCH

Bull Development

To valued customers and potential buyers:

The proper care, feeding and management of a young sire will ensure that you will be happy with the return on investment of your Lazy S bulls.

The yearling bulls that have been fed at Lazy S will increase the genetic performance of your herd through increased weaning weights, carcass quality and replacement females. By managing yearling bulls properly, your investment will return dividends for many years.

Nutrition is the main factor that influences "proper condition and weight" of bulls, and thus their fertility. At weaning time, Lazy S bulls are started on custom bull-growing rations that have been designed for development of the frame and muscle of growing bulls without fattening them. There is no advantage to shoot for high rates of gain in growing bulls by feeding them large amounts of grain. They do not feed barley!

At Lazy S, they believe that the fertility of the herd bull is even more important than its growth performance. So in addition to protein and energy, they make sure the rations contain an adequate trace mineral package. Therefore they feed Chelated zinc, copper, manganese, and organic selenium to enhance reproductive performance.

The cow herd also receives this mineral in the breeding season to enhance their reproduction.

High Selling Black Simmental Bull from the 2015 sale.

JANUARY 30, 2016 • MAYERTHORPE, AB

Lazy S Ranch Bull Power Sale

REFERENCE SIRE

Introducing....

The Lazy S Red Simmental Bulls in this offering are multi-generational red and polled... solid colored or blaze face, sired by breed leaders that rank at the top of the breed for calving ease, birth weight, performance, maternal calving ease, marbling, REA and yield grade.

We have some new brand new sire lines that are a total outcross to anything in Canada: check out Bootlegger, Moon Walk, Ninety Proof and Red Iron sons in the offering.

Lazy S Red Simmental bulls are fast becoming very popular among commercial cattlemen seeking an alternative to other breeds of cattle to strengthen performance, marbling, REA, yield grade and maternal power. Lazy S-sired red Simmental genetics will give you that extra punch and increase your gains on grass and in the feedlot.

Introducing....

At Lazy S, our Black Simmentals are multi-generational black and polled... solid with a select few blaze face. Birth weights are moderate, calves are born easy and are vigorous at birth. Herdsires are selected for superior performance and maternal traits, fleshing ability, soundness of feet and legs with solid carcass performance. Buyers looking for good black-hided calves that excel on grass and in the feedlot, that marble and yield... Black Simmentals are proven to do just that. They also work extremely well in a crossbreeding program with British-based cows, such as Angus or Hereford – daughters will have retained heterosis and added productivity.

The Lazy S Black Simmental Bulls in this offering are a tremendous set of bulls, they have great hair coats, they are strong topped with lots of rib and hip, and offer outcross genetics only found at Lazy S. There are a few two- and three-star heifer bulls, you will love the way they calve.

BLACK SIMMENTAL

Introducing....

Lazy S SimAngus Beefmakers.. CROSSBREEDING MADE SIMPLE! Now more than ever, cattlemen should consider the strengths of utilizing a SimAngus bull(s) in your breeding program. Our SimAngus have demonstrated time after time their ability to add growth, extra muscle and exceptional performance, while maintaining the moderate size, maternal strength, calving ease, and superior marbling and yield grades. Crossing the best of our Red and Black Simmental with Red and Black Angus enhances maternal performance and carcass traits. Notably the largest benefit will be the superb set of look-a-like females you will be creating using this blend of genetics that offer improved reproductive efficiency obtained through heterosis (hybrid vigor) with breed complementarity.

We have created groups of bred alike half and three-quarter brothers in varying percentages, allowing our customers an excellent selection to best fit their management and marketing needs. From straight F1's to high-percentage Angus, or high percentage Simmental-influenced bulls, we have a nice selection for you to choose from... all packaged in a look-alike polled breed group.

Introducing....

At Lazy S, our Angus genetics are selected for calving ease, performance, maternal traits and soundness of feet and legs, with an abundance of muscle, hip and top along with exceptional carcass merit that marbles and yield well. If you're needing heifer bulls, many of the sale bulls have generations of built-in calving ease top and bottom, and rank in the top 10% of the breed for BWT and CE.

We have successfully calved the sires and maternal sires in our own heifer pen, so rest assured they will calve for you. Check out our new sires, Dynamo, 45 Caliber and Hoover.
