

LAZY  RANCH
51st ANNUAL BULL POWER SALE 2020

SATURDAY, JANUARY 25, 2020

We like good cattle and we know you do to!

LAZY **S** RANCH

Welcome...

On behalf of everyone at Lazy S we invite you to join us Saturday January 25, 2020 at Noon, for our 51st Annual Bull Power Sale.

We are a family based operation that make our living from our ranch/cowherd, 51yrs of selecting females that are sound, easy fleshing, deep bodied with good udders/feet and good dispositions. All Polled, solid coloured or blaze face for many generations.

Our herd sires rank in top of the breed for CE MCE, carcass & performance and maternal traits. Calving season starts Feb 1 and runs through March. After calving, cows are fed only free choice hay for a month then gradually put on some silage. We have strong herd health protocol in place with a closed herd. The only outside cattle introduced are a few new herd sires from reputation ranches.

Vaccination protocols for the cowherd and herdbulls include Annual Express FP 5, Covexin Plus, Scourgard 4kc, (cows & herdbulls. Ivomec. Calves at birth are weighed, tagged within 8 -12 hrs old, given nasal vaccine Once PMH, preventative for bacterial pneumonia, Totrazzil (preventative for Cocci) and selenium. In the spring and fall they receive Pyramid 5 /Vision 8/somnus/ Presponse HM as well as a respiratory booster .

We feed our own bulls, background and finish our own steers & heifers not kept for breeding stock. We collect the carcass data on the finished cattle, this is a valuable information in the selection process.

We continue to invest in the best herd bulls the industry has to offer, and collect semen on our own top home raised sires. Check out the herd sires pictures/Videos on our website www.lazysranch.ca. Majority of our herd sires are exclusive to Lazy S and are not available elsewhere.

We offer a large selection of Polled look-a-like groups to pick from, NO Bulls have been sold prior to the sale, genetically engineered to add muscle and rapid growth.

Sale bulls will be videoed and posted on our website mid January weather permitting, if you do not have a good internet connection contact us for a dvd.

We offer a Free Wintering program on the Sale Bulls. Take advantage of our interest free payment plan 1/2 down sale day - post dated cheque for balance dated April 1 2020. Absentee Bidders will be invoiced after the Sale. We picture/video all the bulls ourselves and manage and clerk the sale as well as handle all the sight unseen orders, if you are unable to attend this premier event, please give any one of us a call or any of the capable sales staff, to help with selecting your future herd bulls as we would be more than happy to assist you. BULL POWER 2020 WILL BE A 100% VIDEO SALE!!

We decided to go with a Video sale for many reasons

- Easier on the bulls
- More controlled temp in barn without doors open moving bulls in and out
- Less help required to run a video sale
- Bulls will be penned same as previous years on west side of sale barn for easy viewing!
- We do all our own pictures and Video for the sale. We do not hire a professional photographer to picture and video the bulls
- We encourage everyone to view the Video ahead of the sale - www.lazysranch.ca, check out the web site while you are there, it has a ton of info about the ranch and Genetics on offer. If you don't have a good internet connection please call for a DVD 780 785 3136 Mark & Joanne Shologan will produce the Video

LAZY S RANCH

Bull Development

To valued customers and potential buyers:

The proper care, feeding and management of a young sire ensures that you will be satisfied with the return on investment of purchasing a Lazy S bull. These animals have been on a solid nutrition program provided by Shur-gain Feeds. These yearling bulls will advance the results in your herd including increased weaning weights, carcass quality, and high quality replacement females. By managing yearling bulls properly your investment will return dividends for many years.

The nutrition program at Lazy S includes the following:

- At weaning time, the bulls are started on custom bull-growing ration that has been designed for the development of their frames and muscles without fattening them.
- There is no advantage for targeting high rates of gain in growing bulls by feeding large amounts of grain, therefore barley is not fed.
- Fertility of the herd bull is more important than its growth performance. In addition to protein and energy, rations contain an adequate trace mineral package that includes chelated zinc, copper, manganese and organic selenium to enhance reproductive performance.
- The cow herd also receives this mineral in the breeding season to enhance their reproduction.

Together with many other factors, the nutrition program is a key factor that influences the 'proper condition and weight' of the bulls, and thus their fertility. Shur-gain is proud to partner with Lazy S to provide high quality, consistent feed and expertise to the animals in this sale.

Introducing....

The Lazy S Red Simmental Bulls in this offering are multi-generational red and polled... solid colored or blaze face, sired by breed leaders that rank at the top of the breed for calving ease, birth weight, performance, maternal calving ease, marbling, REA and yield grade.

At Lazy S the majority of the herdsire bloodlines are exclusive to Lazy S Ranch and cannot be found elsewhere.

Lazy S Red Simmental bulls are fast becoming very popular among commercial cattlemen seeking an alternative to other breeds of cattle to strengthen performance, marbling, REA, yield grade and maternal power. Lazy S-sired red Simmental genetics will give you that extra punch and increase your gains on grass and in the feedlot.

RED SIMMENTAL

Introducing....

At Lazy S, our Black Simmentals are multi-generational black and polled... solid with a select few blaze face. Birth weights are moderate, calves are born easy and are vigorous at birth. Herdsires are selected for superior performance and maternal traits, fleshing ability, soundness of feet and legs with solid carcass performance. Buyers looking for good black-hided calves that excel on grass and in the feedlot, that marble and yield... Black Simmentals are proven to do just that. They also work extremely well in a crossbreeding program with British-based cows, such as Angus or Hereford – daughters will have retained heterosis and added productivity.

The Lazy S Black Simmental Bulls in this offering are a tremendous set of bulls, they have great hair coats, they are strong topped with lots of rib and hip, and offer outcross genetics only found at Lazy S. There are a few two- and three-star heifer bulls, you will love the way they calve.

**FREE WINTERING
ON ALL SALE BULLS!**

Introducing....

Lazy S SimAngus Beefmakers.. CROSSBREEDING MADE SIMPLE! Now more than ever, cattlemen should consider the strengths of utilizing a SimAngus bull(s) in your breeding program. Our SimAngus have demonstrated time after time their ability to add growth, extra muscle and exceptional performance, while maintaining the moderate size, maternal strength, calving ease, and superior marbling and yield grades. Crossing the best of our Red and Black Simmental with Red and Black Angus enhances maternal performance and carcass traits. Notably the largest benefit will be the superb set of look-a-like females you will be creating using this blend of genetics that offer improved reproductive efficiency obtained through heterosis (hybrid vigor) with breed complementarity.

We have created groups of bred alike half and three-quarter brothers in varying percentages, allowing our customers an excellent selection to best fit their management and marketing needs. From straight F1's to high-percentage Angus, or high percentage Simmental-influenced bulls, we have a nice selection for you to choose from... all packaged in a look-alike polled breed group.

Utilized in the heifer pen, great calving ease sire.

RED ANGUS REFERENCE SIRE

Introducing....

At Lazy S, our Angus genetics are selected for calving ease, performance, maternal traits and soundness of feet and legs, with an abundance of muscle, hip and top along with exceptional carcass merit that marbles and yields well. If you're needing heifer bulls, many of the sale bulls have generations of built-in calving ease top and bottom, and rank in the top 10% of the breed for BWT and CE. We have successfully calved the sires and maternal sires in our own heifer pen, so rest assured they will calve for you.

Revolver is one of the most complete and powerful bulls we have ever owned. He sires calves with more muscle, thickness and length of body. Revolver ranks at the top of the breed for Weaning and Yearling Weight. He is impressive from every angle. His sons are high performing, deep ribbed, big scrotal bulls with lots of hair
