Welcome....

On Behalf of everyone at Lazy S, we honoured to invite you to join us
Noon, Saturday January 28th, 2023, At the Ranch, for our 54th Annual Bull Power Sale.

We are a three generation family based operation that makes a living solely from our ranch and cowherd. 2022 was a good year for feed. The hay yielded three times more than last year, and the grain crops were a lot better too. The weather held out for silaging and combining and we were able to head into winter with our feed supplies caught back up.

Stop in and check out the excellent bull crop offered at this years sale. Of course it takes a great cow to make a great quality bull. 53 years of top female selection has left us with a tremendous cowherd that we are very proud of. Females are sound, easy fleshing, deep bodied with good udders, feet and temperament. All are polled and solid coloured or blaze face for many generations. Our cowherd ranks top of breed for CE, MCE, Carcass, Performance and Maternal Traits. Only the top end replacement heifers go into the herd each year, resulting in a young and highly productive cowherd. Fertility is very important. Our calving season starts Feb.1st and runs through to the end of March, in which 74% of the cows calve out first cycle. After calving, cows are fed only free choice hay for a month then gradually introduced to some silage. We have a strong herd health protocol in place with a closed herd. Only outside cattle introduced are a few herd sires from reputable ranches. Please see page 3 for our Herd Health and Vaccination Protocols for the cowherd and herd bulls.

We invest in the best herd bulls that the industry has to offer, and we collect semen on our top home raised sires. The majority of our sires are exclusive to Lazy S and are not available elsewhere. We offer a large selection of polled look-a-like groups to pick from, genetically engineered to add muscle and rapid growth. Check out our herd sire pages on our website: www.lazysranch.ca

No bulls have been sold prior to the sale. Sale bulls will be videoed and posted on our website around mid January, weather permitting. You are welcome to view the bulls anytime, but it is best after Jan. 20, as the lot tags should be in the bulls by then. If you are in the area please stop in, Catalogs will be at the house in the porch. Stop and grab one and check out the great line-up of bulls we have to offer. Lunch and refreshments will be provided sale day.

Many thanks to family and friends for the help in making the sale a success.

We look forward to seeing you on Saturday, January 28th, 2023.

BULL DEVELOPMENT

To our valued customers and potential buyers :

The proper care, feeding and management of a young sire ensures that you will be satisfied with the return on investment. Bulls after weaning where running out in big paddocks where they have lots of room to roam, they where brought into their current feed pens which are good sized pens for picturing in December.

In addition to their regular forage diet, the Lazy S Cow Herd is on a balanced mineral program year round. This is the basis for healthy offspring that do the job year after year. Bull health and viability starts with colostrum they receive at birth and continues through life based on solid nutrition and management programs and practices.

Lazy S Bulls are raised on a balanced forage based Total Mixed Ration (TMR). The goal of the TMR is to give buyers a glimpse of the performance potential of the Bull's offspring, but not to maximize performance of the Bulls. Although maximum performance numbers do look impressive on paper, they are not correlated with longevity of the Bulls. We believe in our long term practice of not feeding high amounts of grain to the Bulls - Barley is never fed to our Bulls.

The Lazy S Bull Ration TMR also is fortified with various proteins, digestible fibres, organic trace minerals, yeast and vitamins, all of which aid in developing Bull's with strong bodies, healthy rumens, good immunity as well as increased testicular development and semen quality. Lazy S Bulls are raised to be well muscled, deep bodied and ready to go to work on the range.

Sincerely
Jamie McAllister, Ruminant Nutritionist

All Breeding stock are on a strong mineral program to aid in their reproductive performance.

\$242000.00 high seller at Wheatland in 2021. We purchased a semen pack on this exciting young sire, his maternal side has multiple elite cows behind him.

Introducing...

The Lazy S Red Simmental Bulls in this offering are multi-generational red and polled... solid colored or blaze face, sired by breed leaders that rank at the top of the breed for calving ease, birth weight, performance, maternal calving ease, marbling, REA and yield grade.

At Lazy S the majority of the herdsire bloodlines are exclusive to Lazy S Ranch and cannot be found elsewhere.

Lazy S Red Simmental bulls are fast becoming very popular among commercial cattlemen seeking an alternative to other breeds of cattle to strengthen performance, marbling, REA, yield grade and maternal power. Lazy S-sired red Simmental genetics will give you that extra punch and increase your gains on grass and in the feedlot.

Stout made, super deep bodied with a great disposition and perfect feet best describes 388A. His dam and grandma are elite females that have produced breed leading herd-sires & females at Wheatland Cat-tle Co. His daughters are doing a great job and are sound structured with nice udders.

Introducing...

Lazy S SimAngus Beefmakers.. CROSSBREEDING MADE SIMPLE! Now more than ever, cattlemen should consider the strengths of utilizing a SimAngus bull(s) in your breeding program. Our SimAngus have demonstrated time after time their ability to add growth, extra muscle and exceptional performance, while maintaining the moderate size, maternal strength, calving ease, and superior marbling and yield grades. Crossing the best of our Red and Black Simmental with Red and Black Angus enhances maternal performance and carcass traits. Notably the largest benefit will be the superb set of look-a-like females you will be creating using this blend of genetics that offer improved reproductive efficiency obtained through heterosis (hybrid vigor) with breed complementarity.

We have created groups of bred alike half and three-quarter brothers in varying percentages, allowing our customers an excellent selection to best fit their management and marketing needs. From straight F1's to high-percentage Angus, or high percentage Simmental-influenced bulls, we have a nice selection for you to choose from... all packaged in a look-alike polled breed group.

RED ANGUS

Introducing...

At Lazy S our Red and Black Angus Genetics are selected for calving ease, performance, maternal traits and soundness of feet and legs. They have an abundance of muscle, hip and top along with a reputation of exceptional carcass merit. If you're needing heifer bulls, many of these sale bulls have generations of built-in calving ease, top and bottom, and rank in the top 10% of the breed for BWT and CE.

This year highlights black bulls out of two of the top performance bulls in North America, Schiefelbein Attractive and SAV Renovation, along with many other proven red and black sires. Whether you are needing a cow bull or heifer bull this group of red and black Angus will meet your needs.

Rainfall is a standout from a landmark flush at Schaff's Angus Valley with credentials to write a new chapter in Angus history. His dam SAV blackcap May 4136, is the #1 income cow in SAV history. He combines phenotype, confirmation, muscle, shape, capacity and pounds. We used Rainfall on a few heifers and some select cows.
